Private School**

STUDY EXPERIENCE PROGRAM

**SUNSHINE COAST, QUEENSLAND, AUSTRALIA
CCPS.QLD.EDU.AU**

Caloundra City Private School
is an innovative, co-
educational school which
offers excellent learning
opportunities for students in
Kindergarten to Year 12.

Our students have the opportunity to study and participate in a wide variety of subjects and extra-curricular activities.

Our deliberately smaller school population reflects our belief that students experience many benefits in a nurturing environment with personalised care and academic attention. We pride ourselves on providing an outstanding educational experience and encouraging setting with emphasis on each individual student.

From the Principal

Caloundra City Private School is located within the beautiful Pelican Waters near Pumicestone Passage, Sunshine Coast.

A place where every student matters, a place where student's learning is personalised and where the education program is future focused.

Our vision is to create learning opportunities that are memorable and foster deep understanding. These engaging learning opportunities will also create an environment that ultimately develops a person that is well rounded in character, has developed the aptitude for lifelong learning and who is resilient enough to engage with the opportunities and overcome the challenges that 21st century life brings to them.

We also understand that life at school is more than just learning academia and therefore we have developed a holistic approach to student development. One where learning life skills through outdoor education, school camps, cultural immersions and participating in sport is just as important.

Our school parents are our partners and together we work to establish meaningful opportunities for engagement where the focus is placed on all students' wellbeing, education progress, their connection and service to the community, and advancements in their growth in character.

Caloundra City Private School is also committed to continuously developing new opportunities and different pathways for all students to excel. As students pursue various pathways through the curriculum and co-curricular offerings, they will learn the art of self-efficacy and taking courageous action by living out the Schools' values of Excellence, Integrity, Learning,

Respect and Inclusiveness. Our aim is to ensure our graduates are best placed to thrive well into the 21st century. Our strategic direction for Caloundra City Private School places a core focus on the following aspects:

Wellbeing and Positive Education leveraging the PERMAH and PEEC frameworks
– **Quality Teaching and Learning** with a focus on STEAM, project-based learning, digital literacy and entrepreneurship – **Community**, inclusive of students, parents, teachers, local and international community – **Future focused education program** that develops transferable skills, lifelong learning and readiness for the world of work of the 21st century.

Yours in education, **Leon**
Van Niekerk

Visiting Caloundra City Private School

We invite you to spend one month or one school term at Caloundra City Private School on the Sunshine Coast, Queensland, Australia.

Our continued commitment to our Study Experience Program offers students from overseas the opportunity to stretch their wings and experience a vibrant learning environment in Australia. The Caloundra City Private School culture supports students within an immersive environment, understanding our routines, local class structure, way of life (living with Australian host families during their stay) and exposure to a wide variety of additional activities.

We have a teaching and learning philosophy that places the student at the centre of the learning process and focuses on the uniqueness and individuality of every student.

Caloundra City Private School welcomes International Students.

Visiting Sunshine Coast

The Sunshine Coast is home to some of Queensland's most beautiful beaches, pristine waterways, and a lifestyle second-to-none.

Situated an hour north of Brisbane, the Sunshine Coast is perfectly suited to living a wholesome, family lifestyle by the beach, with easy access to metropolitan facilities from the city.

The Sunshine Coast is more than just a holiday destination. With large infrastructure and urban developments underway, the Coast is taking shape to become a new metropolitan region for South East Queensland. The population in South East Queensland is growing, as more families and professionals travel north for the exciting opportunities beginning to take shape in the Sunshine state.

Educational and career opportunities are just the beginning for young professionals looking to develop their skills on the Sunshine Coast. Caloundra City Private School is centrally located between local beaches and retail districts, University of the Sunshine Coast, the new state-of-the-art University Hospital and Brisbane city.
